The above index covers the Journals issued from 1934 to 1939 inclusive, i.e. 5 volumes with a total of 188 pages.

Each reference gives;-
(a) the volume number
(b) the part or issue number of that volume
(c) the page number in that particular Journal issue

This is rendered necessary by the fact that all pages in these Journals are not numbered consecutively.

PLEASE NOTE:

Pagination and issue numbers are irregular
